• THE PLAYBOOK

Every Journey Audit follows the same playbook.

Pick. Baseline. Prove ROI.

Three steps from first conversation to measurable outcome. Swipe through →

01

PICK THE JOURNEY

Start with one Journey Family that's costing you the most.

e.g. payment recovery, or application rescue.

02

BASELINE IT

Measure what's actually happening today — before any changes.

Repeat contacts, handle time, conversion rate.

03

PROVE THE ROI

Run the journey, then measure the same numbers again.

e.g. fewer repeat contacts, faster resolution.
